product roll-out dates

public announcement date November 11th, 2002
shipment start date December 1st, 2002
advertising embargo date November 11th, 2002

product replacement

The HP LaserJet 4200 and 4300 series printers replace the HP LaserJet 4100 series printers.

product description

The new HP LaserJet 4200 and 4300 series printers offer cost-effective and extremely reliable monochrome printing for workgroups. Engineered and carefully tuned for operations with these printers, the HP LaserJet 4200 and 4300 smart print cartridges (Q1338A and Q1339A) ensure consistently outstanding print quality, increased output capacities, and ease-of-use, providing exceptionally low cost-of-ownership.

key selling points

- **cost-effective** - up to 18,000* pages per print cartridge provides a low cost-per-page and overall cost-of-ownership. Trouble-free operation with minimal user intervention minimises downtime and further increases productivity.
- **high-performance** - complementing the printer's processor, the print cartridge warms up instantly, printing the first page in under 10 seconds.
- **improved print quality** - cartridge enhancements and smart print features produce even sharper text and smoother greyscale transitions.
- **user-friendly supplies management** - integrated smart printing technology delivers real-time supplies status monitoring and automated notification if the toner is low, to simplify supplies inventory management.
- **ease-of-use** - the all-in-one print cartridges combine toner, drum and developing system into a single easy-to-install unit and alerts the user if there is a problem with installation.

environmental storage requirements

Temperature: -20°C to +40°C
Humidity: 0 to 85% relative humidity

warranty

HP LaserJet 4200 and 4300 smart print cartridges - Q1338A and Q1339A - are warranted to be free from defects in material and workmanship during their useful life (end of life is indicated by a printer control panel low-life message).
